CHILDREN LOST

On a lonely beach the old wreck lies
 With its rusted ribs and sides,
 To the biting lash of the salty wind
 And the drive of the flooding tides

Years ago it was wrecked, they said,
 Wrecked where the lost in the sad affair
 And the women and children too

It's there I went on a moonlight night
 Where the cliffs slope wild and steep
 And the ship awoke from sleep

15. Read the passage and answer the questions.

The milk contains all the food, including protein, fat sugar, and other nutrients, a young mammal requires for a long period of time. Milk comes from sheep, cows and goats. Milk is good for us because we grow up healthy and have a strong body; we have sharp teeth and have energy. Everybody needs milk example: babies, toddlers, sick people, children, elderly and old people. In various parts of the world, goats, reindeer, donkeys, yaks, water buffalo and sheep are domesticated and milked. In most countries, however, dairy cows provide milk.

Milk and milk products are drunk and eat in many forms, including buttermilk, cheese, yoghurt and butter. Milk can be reduced to powder, concentrated in a thick liquid and used in cooking. Fresh milk sours quickly, but, when changed into forms such as cheeses, it can be kept for a long time. People consume milk in fresh, dried and condensed forms.
